

## LYALKA

### Technical Rider

These are our ideal circumstances and requirements for the show LYALKA. Adaptations can be made in agreement with the company. Please do not hesitate to contact us if there are any questions.

#### GENERAL

Duration:	60 minutes
Cast:	8 performers
Audience:	Any age
Language:	Non-verbal performance
Technician:	Sound and light technician to be provided by the venue

#### TECHNICAL PREREQUISITES

Ideal Floor Space:	9 x 9 m
Minimum Floor Space:	6,50 x 6,50 m
Rigging:	Rigging point at minimum height of 6, suitable for dynamic aerial performance (swinging)
Floor:	Even, non-slippery surface (ideal: dance floor)
Sound:	Amplifying equipment appropriate for the size of the venue
Light:	Static and moving lights (light plan will be aligned separately based on the venue's local conditions).

#### TIME PLAN

Arrival:	Minimum 5 hours before performance
Unloading/Prep/Sound Check.:	1 hour
Rehearsals and light set-up:	3 hours
Warm-up before the show:	30 minutes

#### DRESSING ROOM AND STORAGE SPACE

A separated and secure area close to the performing space is needed to prepare for the show (dressing room). In addition, a safe storage space for props (ca. 2 x 2 m) is needed, in case the dressing is too small or shared with other companies.
